**COMPANY**  
PROFILE 2023

# TRUST FOR YOUR IT NEEDS

## ABOUT US

Cipta Nusa Adi Guna was officially established at the end of 2019 with a clear vision. We want to be one of the best supporters of IT infrastructure and systems in Indonesia by ensuring our customers with the highest level of satisfaction.

We provide the best solutions for our customers with our professional knowledge that always follows the development of products, appropriate systems.

Our motto is trust for your IT needs. We strive to provide trust in IT solutions by ensuring that they are implemented and supported properly. We maintain the confidentiality of the data. We continue to develop and certify our Professional Service Team to ensure we can deliver what we promise.

# COMPANY MOTTO

## TRUST

We know very well that trust has a strong impact on the effectiveness and efficiency of a business relationship.

For that we prioritize long-term relationships in cooperation with each of our clients.

## FAST

Although we are used to working fast, we still do not rule out accuracy in our work. So that every project management stays on the track and according to the predetermined deadline.

## RIGHT

We never stop in perfecting business systems and strategies.

Because choosing the right product has a big hand in the success of a business project.

# VISION & MISSION

## VISION

To become the leading IT Infrastructure Solution in Indonesia.

## MISSION

Provide and implement the best solutions for our customers and ensure the highest level of customer's satisfaction.

# OUR SERVICES

We provide solutions that keep pace with our customers by combining our Professional Services that support middle and upper products from our principals and partners.

## Consultant / Support

System needs with diverse and dynamic needs, require good planning. For that we exist to provide solutions that are, appropriate, economical, reliable and structured.

## Sales

We provide computer equipment, ranging from desktop, network, server, storage and All yours technology needs.

## Implementation

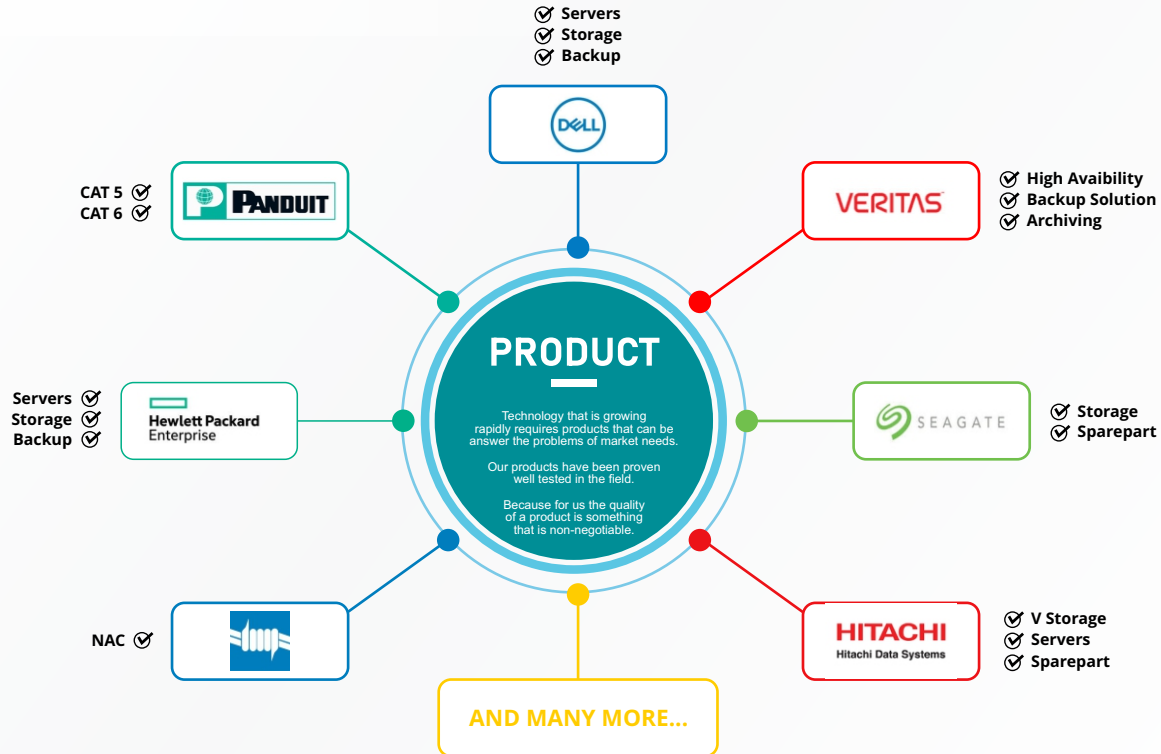

Installation with good design, reliable resource deployment, good security and cost savings are a concern for everyone. we assist in its creation.

## Maintenance

Existing systems need maintenance to be always available.

# OUR PRODUCTS

# OUR VALUE CUSTOMER

Customer satisfaction is one of the crucial factors in our business. For that we always evaluate and evolve so that the products and services we offer can provide solutions, benefits and even more value to our customers.
